

# Data Processing Digest

3848 FREDONIA DRIVE • LOS ANGELES, CALIFORNIA • 90068

PUBLISHED EACH MONTH SINCE 1955

VOLUME 41, 1995

## 1995 ANNUAL SUPPLEMENT

### INDEX AND REFERENCE LIST

Title Index .....	1	Subject Index .....	7
Author Index .....	5	References .....	11

### INDEX

This is the annual index for DATA PROCESSING DIGEST for the year 1995, Vol. 41, Nos. 1-12. The index is divided into three sections: the list of titles as they appeared in the Digest, a list of authors, and a subject index. All articles have at least one subject citation.

Italicized titles are books, periodicals or reports. The numbers following the entries indicate issue and pages in which the item is found. The number preceding the hyphen is the issue; the numbers following the hyphen are the pages.

#### TITLE

Achieving New Performance Levels with Existing Systems, 6-8  
Adventures in Downsizing: A Case Study, 5-13  
The Age of Consent, 6-27  
Analyzing Outsourcing, 2-26  
Anatomy of an IT Guru, 11-13  
AnyMail/400: The Electronic Post Office Of the Future, Now!, 10-20  
Architects as Change Agents, 7-16  
Are You Ready For Client/Server?, 1-16  
Arriba! SQL Server Access Speeds Up, 10-15  
AS/400 Messaging Concepts and Implementation, 10-21  
Assessment Metrics For Use With the Capability Maturity Model: Are We Improving?, 4-12  
At Last! Standards That Stick, 2-17  
AT&T GIS Eases Remote Office Automation, 5-17  
The Audit of Hardware and Software Contracts, 12-2  
Audit Risk Assessment Approach to Systems Development Efforts, 5-2  
Banker's Trust Encourages Key-Escrow, 8-2

Barricades Aren't Enough, 2-8  
Before and After Upgrading Network Connections, 8-19  
Benchmarking Your AS/400 At Rochester, 10-16  
Best of Breed vs. Single Source, 6-11  
Beyond Talking Heads:  
Videoconferencing Makes Money, 1-16  
Bolero—A Practical Application of Trusted Third Party Services, 8-2  
Bringing Green Into the Office, 9-1  
Build a Menu System That Makes Sense To Users, 8-9  
Business Continuity Observations, 9-2  
Business Process Reengineering: Tools and Techniques, 2-19  
Buyers' Scorecard: Client/Server Integrated Packages Face Tough Environment, 1-17  
The Buzzword Biz, 9-8  
C++ Class Library For Drag-and-Drop UI, 8-16  
Calling All App Managers!, 7-14  
CASE Tools As Catalysts For Reengineering, 12-12  
A Case for PCI in Data Acquisition, 9-21  
A Case for the Adaptive Predictive Multiloop Controller, 9-5

Case Study: How To Build a Corporate Virus Response Team, 2-9  
Case Study: Huge State Agency Comes To Grips With Information Security, 2-10  
Centralized Concerns, Decentralized Staffing, 7-3  
The Changing Role of Control System Service Providers, 6-12  
Choose Me, 4-12  
Choosing the Right Display System to Fit Changing Needs, 7-11  
The CIO As Integrative Strategist, 2-6  
CIOs Should Get Back To Basics, 1-19  
Cisco Unwraps Router Software Feature, 10-16  
Client-Side QA Tools, 11-16  
Client/Server Analysis and Design Patterns, 8-13  
Client/Server Architectures and Distributed Databases Extend the Impact of SCADA, 9-6  
Client/Server Conversion: A Case Study, 4-6  
Client/Server Costs Hard to Divvy Up, 4-6  
Client/Server Growing Pains, 9-7  
Client/Server Labs to Independently Benchmark AS/400 Performance, 6-26  
Client/Server Scalability Myth, 1-16

## 2 1995 INDEX

- Client/Server Unifies the United Nations, 5-7
- COBOL and the Coming Millennium, 7-1
- Cognitive Bias in Software Engineering, 7-12
- Commentary: Basic Information Security Principles Should Govern Data Networking, 7-6
- Communicating Between Buildings, 1-10
- CompactPCI: An Industrial-Strength Computer Bus Standard, 12-23
- Competitive Intelligence: An External Threat and an Internal Requirement, 12-6
- Comprehensible, Predictable, and Controllable User Interfaces, 5-8
- Computer-Aided Design Systems, Part 1, 9-14
- Computer-Information Literacy For Senior Management, 2-7
- Computing Information Directory*, 3-19
- Conditional Voting, 10-9
- Configuring TCP/IP on the AS/400, 9-18
- Constructing the Framework For Client/Server Success, 4-5
- Criteria For LAN Acquisition Planning, 1-11
- Critical Technical Issues When Building Enterprise Client-Server Applications, 2-24
- Cultural Treasures Of the Internet*, 5-19
- Culture Change, 2-13
- Cutting Mailroom Costs Through Automation, 11-9
- Cyberspace and the Law, 2-4
- The Dark Side of OOP, 1-7
- Data Choreography Lends Grace to Visual Basic, 11-21
- Data Interchange and Legal Security—Signature Surrogates, 2-4
- Data Processing and ODBC Access in One Unique Tool, 4-18
- Data Warehouse and Software Development, 4-10
- Dealing With Consultant-Compatible Liveware, 7-7
- Debugging Multi-Agent Systems, 5-3
- Delphi's Code Reuse Infrastructure, 5-10
- Design and Document Your Systems Using English-Language Syntax, 8-14
- Developing Database Applications on the Internet, 10-7
- Developing Information Highways, 2-3
- Developments in Wireless Communication, 11-24
- Diagnosing and Solving Power Disturbance Problems, 10-17
- DIALOG Search Tools Now on the Internet, 11-21
- Different Strokes, 2-20
- Distributed Computing Environments, 4-7
- Distributed Data Base Systems: Accessing Data More Efficiently, 3-8
- Dive Into Your Data For Business Insight, 8-14
- DMI Gives Rise to Audit Worries, 3-5
- The Document as Product, 11-8
- Does Good Process Lead To Improved Product? Getting a Second Opinion, 8-9
- Does Your Mobile Storage System Measure Up?, 7-10
- Don't Even Think You Can Fool ID-007, 1-12
- Don't Look—The Project May Be Doomed, 10-7
- Down To the Cybermall, 2-3
- Downsizing, Business Process Reengineering, and Quality Improvement Plans: How Are They Related?, 2-18
- Downsizing: People Issues, 3-7
- E-houses, Remote I/O, LAN Help Mill Build Galvanizing Line in One Year, 10-8
- E-Mail Gateway Alternatives, 12-20
- E-Mail Users Face Control Problems, 4-4
- E-mail Delays Foil Plans, 1-10
- The Economics of Reuse, 1-5
- EDI: A Business Tool To Tame the Paper Tiger, 3-14
- EDP Auditing: The Heights Still Have Not Been Reached, 4-20
- Efficient Use and Reuse of Object-Oriented Technology, 9-9
- Eight Lessons Coordinating Multiple Organizations In Developing an IS, 3-17
- Electric Solenoid Pulsing Increases Pneumatic Control Valve Efficiency, 10-8
- Electronic Brainstorming in Small and Large Groups, 1-15
- Embedded with the Best, 10-6
- Ensuring the Integrity Of Information, 3-17
- ERP Software Helps Manufacturer Improve Customer Service, Reduce Costs, 6-12
- Event Management, 10-10
- Ever Been in That Awkward Stage?, 7-19
- Evolution of a Spreadsheet, 6-23
- F9: The Financial Reporter, 5-18
- Fast-Acting Medicine, 7-15
- Fat Servers vs. Fat Clients: The Transition From Client Server To Distributed Computing, 2-23
- Fax for the AS/400, 9-16
- Fax Integration Offers Strong Advantages, 11-25
- FCC Inks ISDN Price-Cut Plan, 6-7
- A Few Of My Favorite Things, 5-15
- Finding the Right Fit for EDI, 6-9
- Fish Or Fowl? Market Needs Pull Personal Digital Assistants In Different Directions, 4-16
- The Flip Side of Encryption, 7-4
- FlowFile Offers "Real World" Solution in Workflow Marketplace, 9-22
- For Our Eyes Only, 7-23
- Fraud Prevention and Computer Security for Financial Institutions—Part 1, 4-19
- A Free, Portable GUI Toolkit, 12-23
- Freeware Motif, 10-12
- From In Search Of Excellence To Business Process Reengineering: The Role Of Information Technology, 5-12
- From Paper Clips to Computer Chips: Information Management and Going Global, 6-6
- Future Logic, 12-25
- The Future Of Information Systems Audit and Control, 4-20
- The Future Of Information Systems Auditing Education, 1-12
- GAP Syndrome, 7-25
- Gaps In SEI Programs, 3-4
- GATT Forces Strategy Change for Patent Seekers, 7-27
- Geographic Transformation, 7-22
- Get a Handle On Client/Server Performance, 1-17
- Get a Jump Start with ObjectStart, 6-24
- Get Added Value From Your Temporary Staffing Dollars, 12-7
- Get Your Fax Straight, 10-19
- Getting All Your Rights in One Basket, 11-26
- Getting Unwired, 1-11
- Going Undercover With Agents Of Change, 1-1
- The Great Design Tool Debate, 3-2
- Grownups Are Different: Computer Training For Adult Learners, 3-12
- GUI Lessons from Languages, 7-25
- Guide To Managing PC Networks*, 3-18
- Hackers Exploit Weakness In Anti-Abuse Software, 8-1
- Hard Sell, 11-14
- Have Card, Will Travel, 8-15
- Head Of the Class, 2-6
- Hedging Your Bets, 8-11
- Help Desk: Your In-House Experts, 2-20
- High Tech Crime: Hackers Use Sub-board Activity to Cloak Illegal Traffic, 5-8
- Higher Learning, 3-12
- Hot Database Backups on UNIX, 12-4
- How Cable Data is Rebuilding Its Subscriber Management System Using Object-Oriented Analysis, 9-4
- How Caterpillar Tractor Co. Used OOA to Evaluate Corporate-Wide OO Object-Oriented Development, 9-3

How Foxboro Co. Supports Remote  
Salesforce, Plant Operations,  
11-17

*How Local Area Networks Work*,  
3-18

How May I Help You—for Less?,  
10-5

How Superior National Insurance Built  
a Key Executive Information  
System by Replicating On-Line  
Transactions, 12-1

How To Distribute Transaction  
Processing Using Transaction  
Monitor Middleware, 2-17

How to Build a Technology Foundation  
for Customer Support, 12-21

How to Buy Software: How to Choose  
Off-the-Rack Ready Made Software,  
6-18

How to Buy Software: Take Nothing at  
Face Value, 6-18

How to Buy Software: You Need a  
Systematic Approach, 6-17

How to Design Applications that Cross  
Platforms, 7-16

How to Investigate and Prosecute  
Network Intrusions, 12-18

How to Manage Personnel Changes, 5-6

How to Size Midrange UNIX Servers,  
7-13

How to Start Projects on the Right  
Footings, 9-7

IBM Sets Up Hackers Lab, 10-18

IBM: Major V3R1 Glitches Behind Us,  
9-14

Ideas That Help and Hurt Information  
System Development, 8-6

The ID-BAR Deterrent, 12-11

If I'm So Good At My Job Why Do I  
Hate It?, 3-16

Ignore the Buzz Around the Words  
Client/Server, 4-7

Illegal Software—the Corporate Crime  
of the 1990s, 7-5

Improving Quality With Software  
Inspections, 5-10

Improving the Financial Reporting  
Process, 3-14

In Defense of Legacy Systems, 6-19

In Pursuit Of More, Smaller, Faster, and  
Cheaper, 4-18

In School or Out: Technology, Equity,  
and the Future of Our Kids, 7-18

In the Blink of an Eye, 10-15

Information Directories and Visualizers:  
Evolving Requirements For  
Repositories, 3-9

Information Security Conference Sheds  
Light On Network Defenses, 8-4

Information Security Problems as  
Evidence of Management Failures,  
12-11

*Instant Internet With WebSurfer*, 5-19

Insulate Against Internet Intruders,  
1-9

Integrate Version Control Into Your VB  
Applications, 4-17

Integrating Processes for Software  
Excellence, 9-11

Integrity in Information Systems:  
Executive Summary, 1-5

An Intelligent Approach to Data  
Warehousing, 11-10

Intelligent Searching Test Data  
Generation Make This Tool Tick,  
6-24

The Internal IS Consultant, an  
Emerging Profession, 4-3

International Trade Via Computer,  
10-22

Internet Access Without Firewalls,  
1-8

Internet Document Databases Arrive,  
7-23

*Internet Mailing Lists Navigator for  
Windows Users*, 5-19

Internet Security: Firewall Architect  
Lays New Cornerstone, 8-4

Internet Tough Guys, 2-1

Internet: A Way Of Outsourcing  
Infomercenaries?, 10-22

An Introduction to Function Points,  
5-9

Inventory System, 6-27

Is It A Virus? Here's How To Tell,  
1-2

Is OLAP the Answer?, 2-22

Is Your Application "Broke?", 9-16

IS-Directed Reengineering: Implemen-  
tation Avenues, 1-13

ISDN Reaches Out to Remote Sites,  
12-22

IT Security In the Financial Sector,  
2-11

Journaling: A Powerful Debugging  
Tool, 10-3

The "Just-Right" Framework, 7-8

Just Say No! Improving the Require-  
ments Process, 11-1

Keeping Inline In Line, 7-20

Keeping Track of Those @!#\$  
Varmints, 6-1

Keylock Secure Protects Laptops,  
12-12

Know Thy User, 4-14

The Launch Chasm, 8-19

Leader + Maestro + Supertechs =  
"Dominant Design," Competitive  
Advantage, 6-5

#### 4 1995 INDEX

- New Operating Systems and Old Viruses, 12-10
- New Wave of PC Viruses No Prank, 11-16
- New Web Publishing Package to Include Popular Search Engine, 11-21
- Novell's NEST to Jump on Existing Power Lines, 11-19
- ODBC Performance Basics, 9-17
- ODBX and Unix: Port No More?, 9-12
- The Office Computing Bible*, 3-18
- OLAP Debate, 4-11
- OLAP in the Data Warehouse, 10-3
- On the Bleeding Edge: Client/Server Disaster Recovery, 8-21
- On-Line Software Upgrades Keep Production Running, 6-15
- On-Site Service, 7-24
- OODBs and the Marriage of Network and Relational Database Models, 11-23
- Opensizing: Staying On Top With Open Systems, 2-16
- Outsourcing Customer Communications Reduces Costs, Improves Timeliness, 6-20
- Outsourcing the Internal Audit Function: Legal Ramifications of Current Trend, 6-21
- An Overview of Repository Technology, 3-6
- Owner's Manual, 11-15
- Parallel Processing and OT, 11-7
- The Path To Excellence For Information Technology Organizations, 4-13
- Paving the Road To Storage Management: Companies Tangle With Automation, Reliability and Capacity, 2-26
- Payment Schemes Needed, 4-4
- The Personal Side Of Downsizing, 3-7
- Prepare Yourself!, 6-26
- Product Spotlight, 9-19
- Productivity Gains of BPR, 12-13
- Progress Within UK Firms Towards Inter-Departmental Data Exchange In the Open System Context, 5-5
- Project Pathology: A Study Of Project Failures, 8-10
- Project-Level Design Archetypes, 8-12
- PROMIS Monitoring Bank Transactions, 8-2
- Putting Software Development on the Information Highway: Going Beyond E-Mail, 10-1
- Quality In Information Management, 10-2
- Radical vs. Incremental Improvement, 6-10
- Reconstruction, 2-20
- Reengineering Is Free!, 4-14
- Reference-Checking Protocols Leave Everyone in the Dark, 12-8
- Reliability and Safety of Real-Time Systems, 6-4
- Replication: Double the Fun, Double the Trouble?, 3-10
- Reusable Passwords Are No Longer Safeguards, 7-3
- Risk Assessment Approach For Selecting Systems Development Efforts To Audit, 4-8
- Rocks In the Gears, 1-14
- The Role of IS in Managing Acquisitions, 12-16
- The Roots of Business Process Reengineering, 7-2
- Rounding Out the Picture: Objects Across the Client-Server Spectrum, 11-2
- SAP to Deliver R/3 for AS/400, 12-25
- Say It In Code: Logical vs. Physical Types, 1-6
- Scenario-Based Testing for Client/Server Systems, 9-10
- SCO OpenServer Release 5, 11-22
- Screen Objects: The Building Blocks of User Interfaces, 10-4
- Second NCLIS Policy Forum, 7-9
- Secrets Of a High-Performing Team, 1-3
- Secure Electronic Commerce Demands Strong Controls and Greater Security, 4-18
- A Secure Electronic Document Audit Trail Product, 7-6
- Security and Control in Reengineered and Outsourced Environments, 6-10
- Security and NIS+, 7-7
- Seeking a Superhighway On-Ramp, 2-2
- Seven More Myths of Formal Methods, 10-6
- Shapes to Come, 6-2
- Shop-Floor Success, 12-17
- Site-Based Management: Saving Our Schools, 7-17
- SoftCore Introduces Next Generation EDMS, 11-20
- Software Maintenance For Client-Server Applications, 1-4
- Software Performance Engineering for Client/Server, 11-3
- Software Reconnaissance: Mapping Program Features to Code, 5-12
- The Software/Research Crisis, 3-1
- Software Reuse, 1-6
- Solaris 2 Revisited, 7-19
- Space: The Final Frontier, 12-9
- Split Decision, 8-18
- SQL Windows 5.0, 2-25
- Staking a Claim for Database Design, 6-25
- Standards Of Ethical Conduct For Management Accountants, 4-21
- The State of Clustered Systems, 10-11
- Sun Stretches Solaris At High, Low Ends, 5-16
- Support Choices: Do Any Of Them Work?, 1-18
- Surveying Measurement Tools, 6-4
- Survival Strategies, 3-13
- Taking License With Objects, 2-14
- TCP/IP Gets a Face-Lift, 11-24
- The Team at the Top, 11-12
- Telecom Overhaul Hits Roadblock in Congress, 6-7
- Telecommunications for the Home Office, 11-20
- 10 Steps to Client/Server Success, 3-11
- Ten Ways To Save Millions, 1-18
- Test Externally Provided Software Before Use, 1-7
- Test Practices, 7-14
- Testing an Object-Oriented Application, 1-7
- Thinking Outside the Box: IBM Debuts Data Warehousing on the AS/400, 12-24
- The Thirteen Critical Success Factors That Determine Whether TQM Will Succeed Or Fail, 4-3
- Thirteen Steps To a Successful System Demo, 2-15
- Timeboxing For Top Team Performance, 3-5
- To Test or Not to Test Is Not the Question, 12-17
- Token Rings Do the Switch, 9-15
- Too Darn Tight, 3-8
- Top Ten Security Standards, 8-3
- Touch Screen Technologies Cover Variety of Application Bases, 6-21
- Toward A Unified View Of Data, 4-9
- Training Comes Into Its Own, 6-16
- Trends In Systems Development, 4-9

## 8 1995 INDEX

- data warehousing, 9-8
- Datalogix International's GEMMS 3.2, 12-25
- DataWorks Corp.'s DataFlo, 6-12
- debugger, 5-14
- decentralized IS staff, 7-3
- decision support systems (DSS), 5-4
- decision tools, 6-8
- Delphi, 5-10
- demo features, 2-15
- demo key points, 2-15
- derivatives, 12-14
- design review, 11-3
- design tools, 3-2
- Desktop Management Interface, 3-5
- desktop space, 12-9
- desktop tools, 3-14
- desktop video, 1-16
- developer's conceptual model (DCM), 5-3
- DIALOG Bluesheets, 11-21
- Digital Notary System, 7-6
- digital fingerprint, 7-6
- digital library, 2-21
- digital signature, 2-4
- digital signatures, 7-4
- direct gateway, 12-20
- direct inward dial (DID) fax lines, 11-25
- direct inward dialing (DID), 10-19
- display systems, 7-11
- distributed computing, 4-7
- distributed data base, 3-8
- distributed environments, 1-4
- distributed file system, 8-21
- distributed object managers (DOMs), 11-7
- distributed objects, 11-2
- distributed transaction system, 11-11
- Diver, 8-14
- DMI Software Management Information Format, 3-5
- document production, 11-8
- downsizing effect, 3-7
- downsizing, 2-18, 3-7
- draft standard, 11-13
- Drag-It 2.0, 8-16
- dual-tone multifrequency (DTMF), 10-19
- Dynamic Shift Toeplitz (DST), 9-5
- dynamic link libraries, 7-16
- dynamic queries, 5-8
- E-houses, 10-8
- E-mail filtering systems, 4-4
- e-mail gateway service providers, 12-20
- e-mail gateway, 12-20
- E-mail, 2-1
- economic value added, 7-2
- editres, 10-12
- Electronic Data Interchange, 2-4
- Electronic Document Interchange (EDI), 6-6
- Electronic Document Management, 11-20
- Electronic Journals Online (EJO), 11-21
- electronic call logs, 12-21
- electronic data interchange (EDI), 6-9
- electronic imaging, 2-21
- electronic signature surrogate, 2-4
- Elsevier Science's Vaccine Online, 11-21
- embedded applications, 10-6
- employee recruitment, 2-6
- employee references, 12-8
- encryption, 9-3
- end user computing (EUC), 4-1
- Enhanced IDE, 9-13
- enterprise resource planning (ERP) software system, 6-12
- equity of technology in schools, 7-18
- event correlation, 10-10
- event management, 10-10
- executive computer education, 3-12
- executive computer literacy, 2-7
- expert systems, 5-4
- expert systems, 6-13
- external IS auditors, 6-21
- external Web pages, 7-23
- Fagan inspection, 5-10
- failover systems, 10-11
- Fair Credit Reporting Act (FCRA), 10-19
- fat client, 2-23, 9-8
- fat server, 2-23
- Federation Against Software Theft (FAST), 7-5
- financial data warehouse, 3-14
- firewall, 8-4
- firewalls, 1-9
- first-generation legacy environments, 9-7
- five-year strategic IS planning, 2-7
- FlowFile, 9-22

## REFERENCES

The staff of Data Processing Digest regularly monitors a wide variety of computer-related and general business, educational, and scientific periodicals for appropriate articles to digest each month. The emphasis changes as the industry changes, the list varying from year to year and even from month to month, as new periodicals appear and others cease publication or change their editorial direction.

In the monthly issues, only the periodicals refer-

enced in that issue are listed. All addresses which do not include a country are located in the United States.

If you wish to obtain a copy of the complete original article digested in DPD, please request it from the publisher of the originating periodical. Do not write to Data Processing Digest, as we do not copy or reprint, and your request will be delayed. Books should be ordered from their publishers or from a local technical book store.
